SEQUENCE DIAGRAM

InputParser	ConfigParser	Dataset	User	Instance	Label	AssignedInstances	OutputWriter	Logger

Create Dataset → (InputParser to Dataset)

Create Users → (ConfigParser to User)

Log User Creation → (Dataset to Logger)

Create Instances → (Dataset to Instance)

Create Labels → (Dataset to Label)

Get Instance ← (User to Instance)

Get Labels ← (User to Label)

Assign Labels → (User to AssignedInstances)

Log Label Assignments → (AssignedInstances to Logger)

Write Output → (AssignedInstances to OutputWriter)

Write Output → (User to OutputWriter)

Write Output → (Dataset to OutputWriter)
